Organized labor won its greatest victory when in the United States circuit court at Omaha, Thursday, Judge Henry C. Caldwell handed down his decision in the Union Pacific wage-schedule contest.

In the legal opinion this declaration of the court stands out most prominently: "A corporation is organized capital; it is capital consisting of money and property. Organized labor is organized labor; it is capital consisting of brains and muscle. What is lawful for one to do, it is lawful for the other to do." The opinion continues in force the present rules and regulations governing the road except where the different organizations voluntarily agreed to modify the "over-time" features of the present schedules.

Nine of Milwaukee's best firemen died Monday morning fighting what they thought was a little blaze in the Davidson theater and hotel, a "fire-proof" building. They were dropped through the high roof of the building, fell eighty-five feet into the parquet below, were buried under tons of blazing timbers and hot twisted iron girders. When their comrades dug them out they were blackened, and mangled limbs, recognizable only by remnants of uniforms. Some of them lay pinned under the water and roasted slowly; others were battered to death in the fall. Only a few of the men who went upon the roof came down alive, and these were all bruised and maimed. Disaster never fell so heavily before on the Milwaukee fire department.

REPORT ON THE SUPPLY OF WHEAT.
 The report of the secretary of agriculture in reply to the resolution of Senator Pettigrew calling for a statement of the visible and invisible supply of wheat, was submitted to the senate. The total supply March 1, 1893, he states, was 610,000,000 bushels; exports from March 1, 1893, to March 1, 1894, consumption from March 1, 1893, to March 1, 1894, amount in farmers' hands March 1, 1894, and the visible supply March 1, 1894, he states, amounted to 729,000,000 bushels, which he gives as the total amount distributed and available for distribution.
